

Ways to support your child's learning

At the end of each class's work page, there are a list of suggested websites for different activities. Here are some other suggestions for activities to help your child.

Coding

Suitable for all ages, code.org is a free resource.

Typing

Typing is a great life skill for children to learn. www.typing.com and BBC dance mat are both free typing programs. This will need lots of practise!

Active activities!

Gonoodle is a free app and youtube channel that is used regularly in classes for a fun movement break.

Just Dance on youtube has many songs that can danced to.

History/Science

www.horrible-histories.co.uk has lots of games.

Why not look up the 1911 census and try and get children to trace your family's history.

The American Museum of Natural History has lots of good activities.

Activity Mat

Colour in all the activities you get done!

Bake a cake	Play I Spy	Sing the alphabet song	Do a jigsaw
Build something	Draw your favourite animal	Play with some playdough	Play in the garden
Watch something on Cúla 4/TG	Design a new cover for your favourite book	Make some junk art	Make your bed
Fold your clothes	Keep a diary	Play Snap or another card game	Write a shopping list
Find something longer/shorter than your arm	Plant some seeds	Make up a quiz	Take a GoNoodle break (gonoodle.com)
Go on a shape hunt - find circles, squares, rectangles, triangles	Play Snakes and Ladders (or another game)	Practise tying your laces	Paint something
Play shop with money	Pair your socks	Roll 2 dice, add the numbers together	Pick up 10 toys and put them away
Hide something and make a treasure map to find it	Read something every day	Read a story to a sibling / pet	Build a fort

Maths eyes

Number:

- If you are organising a meal, how many are home for dinner today? How many sausages will be needed if we give everyone 3?
- What is the highest house number we can see? Is the number odd or even?

- What is the highest car registration number you can see?

Time:

- How long does the video last for? How long until her favourite television programme / activity? What time will it be in 2 hours time? What month is it, what month was it last/next month?

Weight, length and height:

- Let children weigh out ingredients when cooking; estimate how much things will weigh before weighing them; make a height chart; point out signs for distance; when going on a journey who will have the closest guess?

Shapes:

- What shapes can children see in the environment?

Money:

- Work out which item is the best value for money eg packs of apples. Let children make a menu using pictures or prices from a supermarket brochure; they could make a collage for a new bedroom and make out how much it would cost.
